

Lucy Grainger – Product Marketing Engineer, Renishaw plc.

Business address

Renishaw plc,
Stone Business Park
Brooms Road
Stone
Staffordshire
ST15 0SH
UK

Lucy Graduated from the University of Sheffield, UK with a masters degree in Chemistry in 2007. Since then Lucy has worked within industry carrying out R&D for product development. Projects include, growth of covalently bound lubricious polymers for arterial catheters, drug eluting polymer coatings for stents, and development of a proprietary process to produce metal powders from their oxides using electrolytic extraction technique. Lucy has developed knowledge within metallurgy and powder metallurgy during her time working within industry. Most recently Lucy has been working for Renishaw, within the additive manufacturing products division. Renishaw manufacture laser powder bed fusion systems for industry, and Lucy's role sits between the technical and commercial areas of the business which allows her to apply and develop her technical knowledge and marketing communication skills.
